Professional Summary

Dynamic and detail-oriented Full Stack Developer with 1 year of experience at Nixcel Software Solutions and Bharat Intern. Proficient in developing scalable web applications using PHP, JavaScript, Laravel, React, and MySQL. Proven ability to lead projects from conception to deployment, ensuring robust functionality and high-quality user experience. Strong team player with excellent problem-solving skills and a passion for continuous learning and innovation.

SKILLS

Programming Languages	PHP, Java, C#, JavaScript, C, C++, SQL.
Technical Skills :	Laravel, CodeIgniter, ASP.NET, .NET Core, .NET MVC, HTML, CSS, React, Advanced Java, OOPs, Data Structures, MySQL, PL-SQL, Spring Boot, Spring MVC, Microservices, DevOps, MongoDB, Hibernate.

PROFESSIONAL EXPERIENCE

Full Stack Developer | BookEventz.com
July 2024 - Present

- Spearheading the development of multiple in-house web and mobile applications, utilizing PHP with CodeIgniter for the backend and React.js and Node.js for the frontend.
- Collaborating with cross-functional teams to enhance four core products, focusing on event management and booking solutions.
- Implemented new features and optimized existing ones to improve user experience, resulting in a notable increase in user engagement.
- Ensuring scalability and maintainability through clean code practices, regular testing, and performance optimization.
- Managing full-stack development from architecture planning to deployment, contributing to both frontend and backend improvements.

Full Stack Developer | Nixcel Software Solution
June 2023 – July 2024

- Lead the development of the Exhibition Management System, using PHP for the backend and HTML, CSS, JavaScript, and Bootstrap for the frontend, with MySQL for the database.
- Implemented a comprehensive web application enabling users to register as Organizers or Exhibitors, resulting in a 40% increase in user registrations.
- Successfully deployed the project, with the site now live and facilitating seamless exhibition management for over 100 events.
- Developed a B2B Portal with PHP for the backend, React for the frontend, and MySQL for the database.
- Created a dynamic platform that improved B2B interactions, leading to a 25% increase in client engagements.
- Ensured code quality through rigorous testing and code reviews.
- Optimized database performance and implemented efficient querying using MySQL.

PROJECTS

Title	:	**Exhibition Management System**	**Duration: 6 Months**
Role	:	**Full Stack Developer(Team Lead)**	**Client : Confidential**

Description : The Exhibition Management System is a comprehensive web application designed to streamline the registration and management of exhibitions. Users can register either as an Organizer or as an Exhibitor, providing a range of facilities tailored to their roles. The system features a user-friendly interface that ensures seamless navigation and accessibility across multiple platforms. The application is currently deployed and live, offering a robust solution for exhibition management needs.

Features : ➢ **Role-Based Registration:** Users can register as either Organizers or Exhibitors, each with specific functionalities and access levels..

➢ **Exhibition Management:** Facilitates the organization of exhibitions, including scheduling, booth allocation, and participant management.

➢ **Real-Time Updates:** Provides real-time updates and notifications to keep users informed about the status of their registrations and upcoming events.

Environment: Laravel, PHP, JavaScript, HTML,CSS,BootStrap, Visual Studio.
Code Repository: GitHub   **Database:** MariaDB.

Title	:	**Task Management System**	**Duration: 6 Months**
Role	:	**Full Stack Developer**	**Client : Confidential**

Description : Task management System facilitates efficient organization, assignment, and tracking of tasks within teams. Has a user-friendly interface enabling seamless navigation and accessibility across multiple platforms. Enhanced productivity by enabling deadline management and progress tracking features, ensuring timely project completion. Customizable task statuses tailored to individual team needs, promoting collaboration and clarity.

Features : ➢ Users can organize tasks into categories, projects, or priority levels to keep track of various responsibilities.

➢ Integrate features such as queries, file attachments, and activity logs to facilitate communication and collaboration among team members.

Environment: Laravel, PHP, JavaScript, React, Visual Studio.
Code Repository: GitHub   **Database:** MariaDB.

EDUCATION

Degree	Branch	College Name and University	Passing Year	Result
PG-DAC	Post Graduate Diploma in Advanced Computing	Center For Development of Advanced Computing, Mumbai	2023	**67.25%**
B. TECH	Mechanical Engineering	Dr. D.Y. Patil Pratishtha's College of Engineering, Kolhapur.	2022	**82%**
Diploma	Mechanical Engineering	DKTE Society's Yashwantrao Chavan Polytechnic, Ichalkaranji.	2016	**62.83%**
SSC	General	Sou. Shiladevi D. D Shinde Sarkar Highschool, Kolhapur	2013	**88%**
